Dear Chang,

Congratulations! We are pleased to inform you that you are being recommended for admission to the Department of Electrical and Computer Engineering Master of Engineering (MEng) program at the University of Illinois Urbana Champaign beginning with the Fall 2023 semester. We believe that our graduate program can provide an excellent environment for your graduate studies.

This professional program is a non-thesis (no research) degree that is completed in two to three semesters. To learn more about our program requirements, visit https://ece.illinois.edu/admissions/graduate/meng-degree-information. This program is a self-funded program where students are responsible for paying their tuition and fees. Students in this program are not eligible for Board of Trustee (BOT) tuition-waiver-generating assistantships at the University of Illinois. To learn more about the tuition rates, please visit https://registrar.illinois.edu/tuition-fee-rates (click on Graduate and Professional and then look for College of Engineering rates).

If this recommendation is approved by the Graduate College at the University of Illinois Urbana-Champaign, you will receive an offer of admission from the Graduate College. Please inform of us your decision by 4/15/2023. We encourage you to reply as early as possible so that we may make the best use of our resources and finalize our plans for the coming academic year.

In order to get your visa eligibility form processed, we will need the following item from you:

Financial verification - you can access the financial certification form at the following link: http://www.grad.illinois.edu/sites/default/files/pdfs/certoffinances.pdf

Your sponsor will need to sign this form verifying sponsorship and provide an official bank statement showing availability of funds. These documents can be scanned directly to Kim Sgarbossa (ece-meng-advisor@illinois.edu). Paper copies are no longer required.

Again, congratulations on this recommendation for admission! We hope you are able to join the Department of Electrical and Computer Engineering MEng program and we look forward to working with you to accomplish your educational goals. For additional information about our department and friendly community, please click here:

https://ece.illinois.edu/academics/grad/meng-manual.

If you have any questions, please feel free to contact Stacy Walker (slwalker@illinois.edu).

Sincerely,

Prof. Bruce Hajek
Department Head
Electrical and Computer Engineering
